STORY

“Aw man, I just can’t seem to catch a break...”

I was taking a walk in the park, thinking about how unlucky I’d been lately, when I came across a young lady holding an adorable kitten.

***“Hello! You seem kind of down.
Is something bothering you?”***

I was telling her about my troubles when the baby kitten started crying out in hunger.

“Ok, let’s go home and get you some food. It was nice meeting you, and I hope to see you again. Goodbye!”

That evening, I couldn’t get the adorable little kitten out of my mind, so I decided to try raising one myself. I just hope my Mom and Dad will let me!

GET READY TO RAISE YOUR KITTY!

After you insert the Catz Game Pak and turn the POWER switch ON, the title screen will appear. From there, simply choose a menu.

New Game: Raise your kitty from scratch. The first time you play, this will be the only choice available.

Continue: Raise your kitty starting from the last time you saved the game. This option will appear after you have saved the game at least once.

Connect: While taking your kitty out for a walk, you can introduce it to your friend's kitty and have them become friends. This option appears after you have saved the game at least once.

Album: Allows you to see previously raised kitties and nostalgic endings. This option appears after you have completed one game (depending on the ending).

There are lots of different endings to see!

CHOOSE YOUR KITTY!

When you start a new game, you get to pick your character's name and gender. Afterwards, you will head to the pet shop to choose your new kitten.

The number and types of available kittens will increase the more you play the game.

Choosing a Name

Use the +Control Pad to choose a letter, the A Button to input the letter, and the B Button to erase a letter.

You can choose between capital letters and lowercase letters for your kitten's name. Once you've finished writing the name, select OK! or press START. If you choose Yes, your kitten's name will be permanent; if you choose No, you can start over. There are seven different types of kitties waiting for you when you start the game. The more you progress, the more types of kitties will be available! (And all their personalities are different!) All the fur patterns are different, too! When you see arrows, use the +Control Pad to move the screen around.

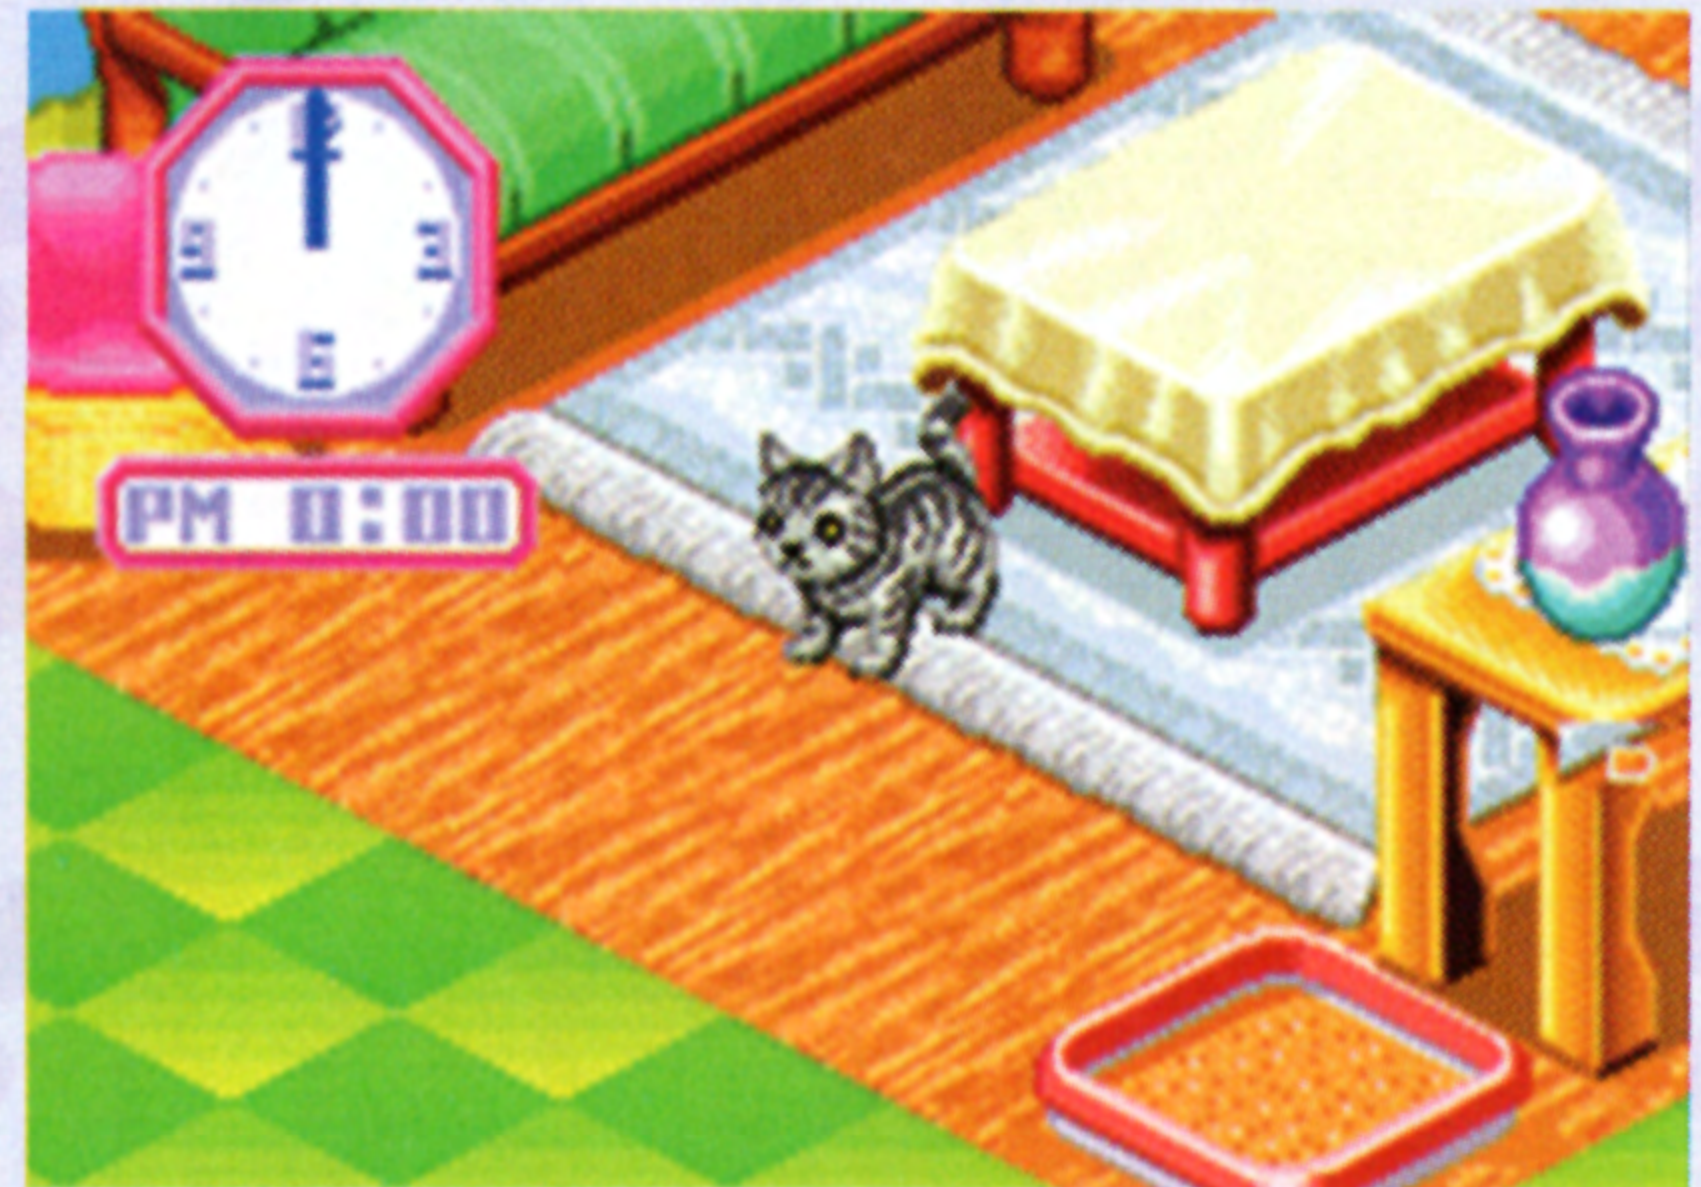

The date will be displayed.

A DAY IN THE LIFE OF YOUR KITTY

Your kitty can usually be found inside the house. Be sure to give it food, water, and a healthy dose of cuddling!

You will receive an allowance.

The scene changes to the living room.

Use the Care Commands to take care of your kitty.

Choose Sleep between 9 p.m. and midnight to end the day (you will sleep automatically after midnight).

Be sure to save after every day!

At the end of the day, the Save screen will appear. When you want to save your game, choose Save at this screen. Be sure not to turn the power off while the game is saving.

THIS IS YOUR KITTY'S HOUSE!

You can move between two different rooms: Living Room and Children's Room!

Living Room

A favorite room where the kitties can have a meal or use the litter box.

Be sure to watch the kitty's behavior closely! You can understand what your cat is thinking by watching and listening.

Care Commands are displayed when you press the A Button.

Children's Room

A wide room, perfect for playing! If you're good, your kitty might even sleep together with you in your bed.

A cat's favorite spot is on top of the bed.

RAISE YOUR KITTY WITH THE CARE COMMANDS!

When your kitten is inside the house, pressing the A Button will bring up the Care Commands. You will need these to look after your kitty. Using one of these commands also causes time to pass.

Using Care Commands

Once the Care Commands are displayed, choose the one you want by using the Control Pad to select it and the A Button to confirm. Pressing the B Button will return you to the previous screen.

There are five different types of care Commands

Cat Command: Use this to check your kitty's current condition is and to see any items it may have brought home from a walk.

Food Command: Use this to give your kitty food, water, and treats.

Clean Command: Use this to clean up dirty places.

Play Command: Use this to pet your kitty's head, play with toys, or brush its fur.

Go Out Command: Open the door to let your kitty go for a walk or to go shopping. Be sure to use it when you go to sleep too!

While your kitty is responding to a command, you cannot use a new one until it is finished. After your kitty has finished whatever it was doing, take your time in choosing the next command.

About Care Commands

Choosing a Care Command will bring up a menu with more options. Use the **+** Control Pad to maneuver between the choices, and use the A Button to choose one.

Sleep

End the current day.

Nap

When you take a nap, your kitten will behave in any number of ways. (This command can only be used on Sundays.)

USING THE CLOCK

When you use the Care Commands, time will advance in the game. Depending on the time of day, several different events may occur.

Morning: Good Morning!

When your kitten wakes up, it might be a good idea to give it some food or take it for a walk. At this time of day, you cannot take a nap or go shopping.

School: See You Later!

This is when you go off to school for the day. Events with classmates will occur during this time. At times, your kitten will even go off on a walk all by itself. There is no school on Saturdays and Sundays.

Free Time: Let's Play!

When you get home from school, you can play with your kitten. Please be sure to play with – or scold – your kitty as much as you want until it falls asleep. Once it turns 9 p.m., you can choose to go to sleep as well. The day will end automatically at midnight.

Sleep: Good Night!

Going to sleep early allows you to get up early. When you wake up early, you will have more time before school to take care of your kitten. Going to sleep late means you might oversleep, so be careful.

SAVE UP POINTS AND LEVEL UP!

By taking care of your kitten, you will receive various kinds of points. When you have saved up enough points, you will go up a level! If you are not good about taking care of your kitten, your level might go down, so be careful.

Friend Points and Levels

These determine the strength of the friendship between you and your kitten. When you become great friends, the kitten's behavior will change in various ways. For example, the kitten might sleep with you at night.

Mood Points and Levels

Displays your kitten's mood.

Punch Points and Levels

When you use certain toys to play with your kitten, its strength will increase. Could this help your kitten when he encounters a rival kitty during a walk!?

Looks Points and Levels

Displays the quality of your kitty's fur and charm. If you want your kitty to be the talk of the town, be sure to increase these points.

Try to raise your points as much as possible! Be careful not to let your points drop into the negatives.

Mood	1	100
Friend	1	100
Punch	1	100
Looks	1	100

You can see how many points are needed for the next level by checking the Status screen.

SHOPPING AND ALLOWANCE

Choosing Shop from the Going Out Care Command menu will allow you to go shopping. Upon entering the store, use the +Control Pad to choose your desired merchandise corner. Then choose which items you would like to purchase.

Your chosen merchandise corner.
Your money.

Item's name, price, and description.

To go back, select the Arrow icon and press the A Button. (You can also press the B Button as a shortcut).

You cannot purchase items that are sold out.

MAKE FRIENDS BY CONNECTING!

Choose Connect from the title screen to show your kitty to a friend and have your kitty and your friend's kitty become friends themselves. When both of your Game Boy Advance systems are displaying the Connect screen, one of you must press START.

GAME LINK® PLAY

Here, we explain how to connect two Game Boy Advance systems using the Game Boy® Advance Game Link® cable.

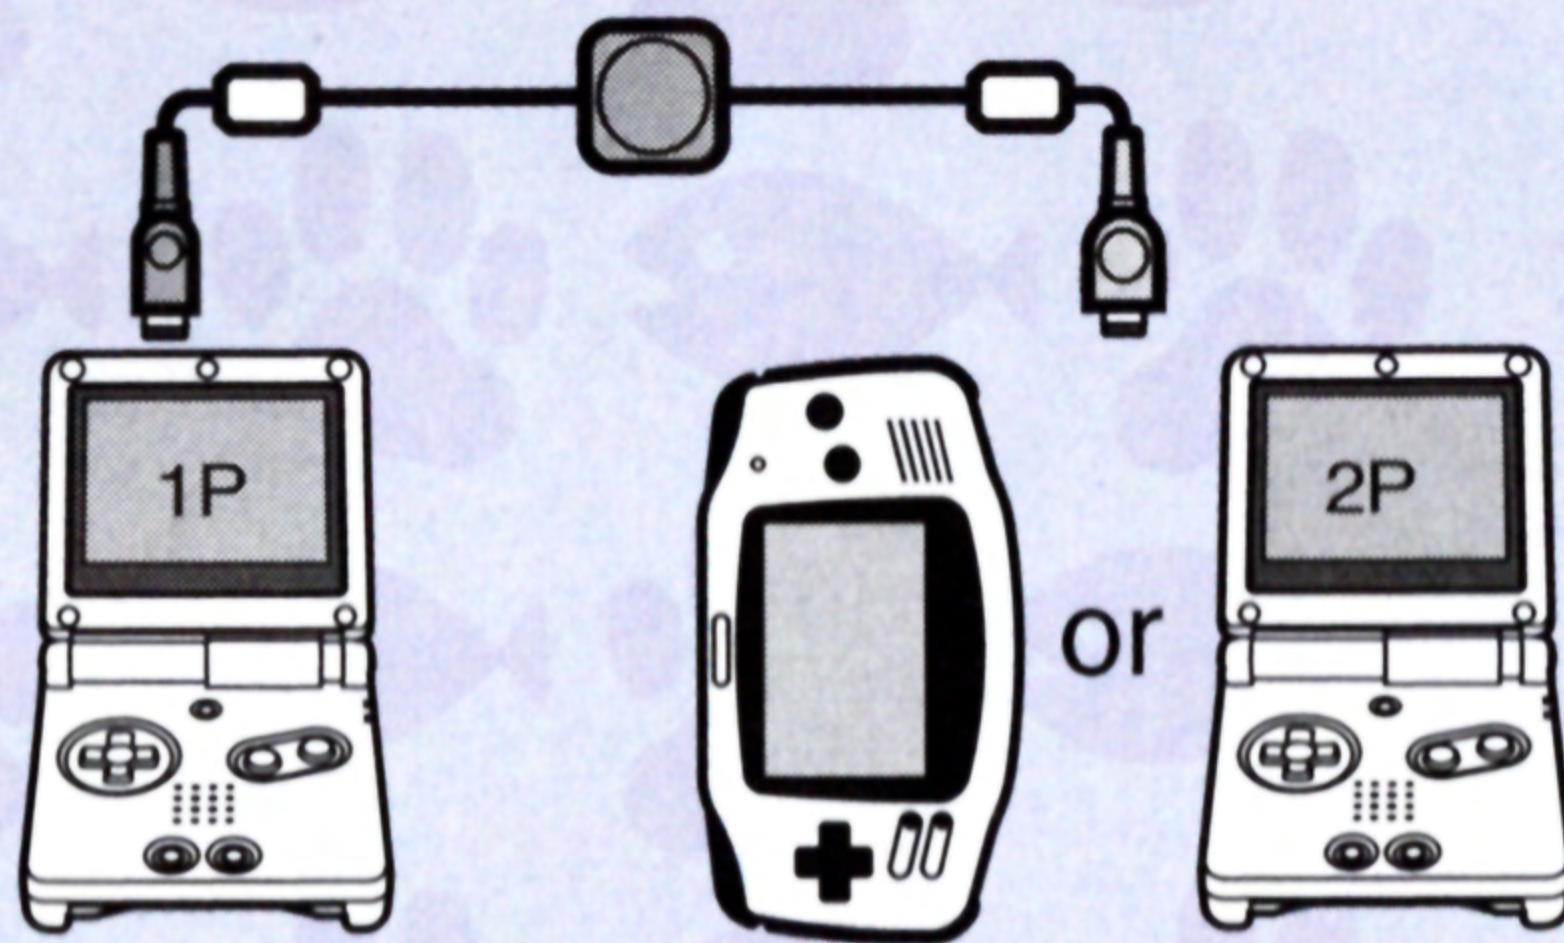

You will need:

- Two Game Boy Advance systems.
- Two Catz Game Paks.
- One Game Boy® Advance Game Link® Cable.

How to Connect

1. Check to make sure that both Game Boy Advance systems are turned OFF, and then insert one Catz Game Pak into each system.
2. Connect the Game Link cable to the appropriate ports on the Game Boy Advance systems (located at the top, near the Game Pak port).
3. Turn the Power ON for both Game Boy Advance systems. (Make sure not to do this until the cable is connected.)

The first player the game recognizes will have the small plug on the connection cable nearest to them.

Precautions

- Any of the following will cancel the connection or result in an error:
- Using a cable other than the Game Boy[®] Advance Game Link[®] cable.
- Not having the cable fully plugged in.
- Pulling out the cable while connected.
- Having another cable connected to the connection box plug while connected.
- Connecting three or more Game Boy Advance units simultaneously.

MEET THE KITTIES

American Shorthair

A popular kitty known for its – you guessed it – short hair. A bit on the stocky side, this kitten is beloved for its bright personality.

Tortoise Shell Cat

A type of cat found in Japan, its name means that its fur is a combination of three or more colors. Most cats of this type are female.

Russian Blue

Popular for its green eyes and short, blue fur. Also referred to as the Winter Fairy or Short Haired Noble. It is known for its friendliness.

Persian

Adored for its round eyes and face; soft, abundant fur; and calm disposition. Its dignified appearance is loved throughout the world.

Himalayan

With its large, round face, tiny ears, oval blue eyes, and cute nose, this is another popular cat. Possesses a very cheerful personality.

Abyssian

Known for its lithe yet flexible body and wild personality. Its ancestors are said to have been raised in ancient Egypt.

Ocicat

Like its namesake, it possesses beautiful spotted fur and a wild personality. A very stubborn, but kind, cat.

HOW TO LIVE HAPPILY TOGETHER WITH YOUR KITTIES

What are some tips for raising my kitty? Watch your kitten's behavior for clues as to what it wants and what it is thinking. The higher your points are, the better you and your kitten will get along. Waking up early will allow you to spend more time taking care of your kitty.

My kitty doesn't look happy. Have you been grooming it regularly? Remember, all living things, including cats, need grooming at least once in a while!

My kitten's mood is rotten and won't get better. What can I do to fix it!? Is your kitten hungry? Make sure to look closely at its Status screen. Giving your kitten treats is usually an easy way to improve its mood.

I'd like to be able to keep my kitten longer... The initial period of time for keeping a kitten is 14 days.

Viewing the different endings will allow you to keep your kitty for up to seven additional days.

Whatever you do, don't forget this! Your kitten loves to be clean! Make sure to clean out its litter box at least once every day.
